Workshop Overview >>>>>

Globally recognized for its effectiveness, executive coaching has become one of the most heavily invested tools in leadership development among the world's leading organizations. Increasingly companies are driving a coaching culture to increase engagement, retention and performance. The value of the external coach is now widely recognized as executives are able to utilize the agenda-free relationship to examine the targeted areas for personal and professional development in a safe forum.

Our cutting-edge program provides thorough and highly experiential training focusing on tools and practical application of real-life executive coaching scenarios so that you come away fully equipped to operate as an internal or external coach.

To make our ECCP unique, we acknowledge the conflicting paradigms of Western leadership best practice and the Chinese culture, and examine the challenges ahead for coaching in China.

Our ECCP was designed by Lisa Wandl, founder and Managing Director of Coaching Australia, who also holds the PCC credential with the ICF. Lisa is globally renowned having personally designed and delivered coach training to leaders from more than 100 multinational organizations across 3 continents and more than 14 countries. Her program designs draw on her 18 years' corporate experience along with more than a decade operating as a sought-after Executive Coach serving a global clientele.

Our 7-day ECCP is broken down into two 3-day live workshops supported by 4 podcasts and four 60-minute conference calls between the workshops, followed by 3 additional monthly group mentoring calls and e-mail support.

“ Out of the \$80 billion being currently spent on corporate education, about \$2 billion is spent on executive coaching at senior executive levels in Fortune 500 companies. ”

”

“ I met my first coach 11 years ago. Up till today, I have been playing the part of the coachee, not knowing what exactly is the role of the coach. As a leader sometimes you're very lonely, and if you run very fast, then it will be even worse. This ECCP delivered by Lisa and Maryanne has helped strengthen my relationship with my team again. From now on I will try to listen to them more and this is my best learning out of this program. ”

Individual Coaching Feedback to Participants

“ *Excellent program! Good material touched on many subjects. I especially enjoyed the concepts, definitions, acronyms and phrases as well as the role play, which really made me think and force my lessons into practice. Good examples with good articulation; presentation is done in a concise and pleasant way; inducing a lot of interactions from the class is also exceptional; good way of leading from one topic to another.*

It has been soooo rewarding for me in many ways. To say the least, I think I have become a better person as I see myself starting to think differently. I believe I need to change myself before I can help change others.

”
